

Honeywell Thermostat Basic User Instructions

(Full instructions can be found on: <http://www.honeywelluk.com/products/Programmable-Thermostats/TPI/CM907-7-Day-Programmable-Thermostat/>)

Controls Layout

- | | |
|-------------------------|----------------------------|
| 1 Day / Date Display | 11 Program Buttons |
| 2 Time Display | 12 Battery Compartment Lid |
| 3 Dynamic Text Display | 13 Battery Compartment |
| 4 Heating On Indicator | 14 Holiday Function Button |
| 5 Battery Low Indicator | 15 Party Function Button |
| 6 Temperature Display | 16 Day Off Function Button |

The thermostat can operate in **three** different modes:

• AUTO (automatic) mode

Automatic mode sets the thermostat to follow the temperature program. Operating the thermostat in this mode is the best way to maintain a high level of temperature comfort whilst maximising your energy savings.

• MAN (manual) mode

Manual mode sets the thermostat to act as a simple thermostat with a fixed setpoint throughout the day. The setpoint can be adjusted from 5°C to 35°C by using the or buttons. The thermostat will continue to maintain this temperature until another operating mode or

temperature is selected.

• OFF mode

Off mode sets the thermostat to control to a minimum temperature setting of 5°C (default) that acts as a frost protection measure for your home. This value can be adjusted by calling your installer.

AUTO mode:

Selecting **AUTO** mode will run the heating to the thermostats factory setting which has been set to provide normal heating requirements

Monday to Friday

Period	1	2	3	4	5	6
Time	6:30	8:00	12:00	14:00	18:00	22:30
Temperature	21°C	18°C	21°C	18°C	21°C	16°C

Saturday & Sunday

Period	1	2	3	4	5	6
